

PRODUCT SHEET

Scale: 2X

MATERIAL: Extruded rigid PVC, industry-standard, durable, chemically resistant product designed for outdoor weatherability.

LENGTH: 1-13/16" and 2.65"

NOMINAL THICKNESS*: 0.030"

PACK:

1-13/16" - 85 pcs per carton

2.65" - 65 pcs per carton

DESIGN FEATURES: Works best with CUV8V Hat Shape vents. Join ends of vinyl continuous soffit vent pieces, creating a very clean look. Eliminates unsightly gap where CUV8V pieces are overlapped at seams. Eliminates possibility of vent seams deflecting /moving apart over time (where pieces might be butted together and caulked).

*The standard thickness tolerance for products made from aluminum sheet material shall be +0.000", -0.003".

PVC Trim Painting Guide

Tamlyn PVC Trim may be painted to achieve a custom color.

Use a light color, 100% acrylic latex paint with a light reflective value (LRV) of 55 or higher (Flat Black=0, pure white=100). Painting PVC trim with dark colors may cause the product to warp

Tamlyn does not recommend painting our PVC products with dark colors unless a good quality heat reflective paint is used such as Sherwin-Williams Vinyl Safe™, and that it is applied according to the paint manufacturer's recommended application instructions

If a dark color (LRV value of 50 or lower/darker) paint is used, excess solar heat may be absorbed, subjecting the PVC to warping and distortion due to extremes of thermal expansion and contraction. This reaction is even more evident when these parts are exposed to direct sunlight in hot climates. Paint adhesion loss, blistering and peeling may also result

Failure to use heat reflective dark color paints on Tamlyn PVC products will void warranty and Tamlyn will not be responsible for repair or replacement of any resulting damage due to distortion, warping, buckling, shrinkage, paint blistering, or peeling of paint on the PVC products, or repair or replacement of related siding, soffit, or trim products

Always follow the paint manufacturer's recommendations to apply

Make sure Tamlyn PVC Trim is clean and dry before painting
