

PRODUCT SHEET

MATERIAL: Extruded rigid PVC, industry-standard, durable, chemically resistant product designed for outdoor weatherability.

LENGTH: 8'

NOMINAL THICKNESS*: 0.030"

FINISH: White

RAINSCREEN SIZE:

VSJ38 - 3/8" (9.52mm)

VSJ12 - 1/2" (12.7mm)

VSJ34 - 3/4" (19mm)

DESIGN FEATURES: Designed to be installed at the base of vertical siding. The vents allow any moisture build up behind the siding panels to weep out while preventing pests from entering. The venting also provides cavity ventilation which assists in drying cavity moisture and also helps increase energy efficiency due to the separation between outside heat and interior walls.

*The standard thickness tolerance for products made from aluminum sheet material shall be +0.000", -0.003".
