

DESIGN FEATURES

Provides a clean open outside corner which complement the Vertical Reveal System. The 2 Piece design permits application of the base part first and then installation of the cover cap at a later time. In tight fit situations this may be more convenient than using the standard outside corner. However, due to the natural expansion and contraction of aluminum, all 2-Piece COCR caps must be secured by either adhesive or pop rivet.

Recommended adhesive needs to meet these requirements:

Tensile Strength: ASTM D412 - 475 psi

Lap Shear Strength: ASTM D1002 - 550 psi

MATERIAL

6063-T5 .045" ± .005 extruded aluminum alloy with proprietary coating that protects against harsh weather conditions and allows for paint adhesion. For all other finish options refer to page 20.

NOTE

Do not install XtremeTrim® Reveal Open Outside Corner on horizontal applications where the exterior flange can catch/hold water.

All measurements are nominal

ITEM ID	A	B
COCR516	5/8"	3/8"

All parts are 10' Length unless otherwise indicated
