

DESIGN FEATURES

XtremeDeckTape™ is a self-adhering roof deck tape designed to help protect roof deck seams, joints, and fastener penetrations from water intrusion. Applied before underlayment installation, it adds a protective barrier at critical roof deck details. Each roll is 3 in. wide x 75 ft. long and features a durable 20 mil thickness for dependable jobsite performance.

ITEM ID	WIDTH	LENGTH	THICKNESS
TDT3-75	3"	75'	20 mil

BENEFITS

Water Intrusion Defense

Helps protect roof deck seams and joints from water intrusion beneath the roofing system.

Seals Around Fasteners

Self-seals around roofing fasteners to help protect vulnerable nail penetrations.

20 Mil Protection

Durable 20 mil construction provides a robust protective layer at critical roof deck details.

Self Adhering Application

Applies directly to the roof deck for fast, dependable seam protection before underlayment installation.
