

XCAC

DESIGN FEATURES

Tamlyn® XtremeCOAT is a high strength, Two-component fast curing, hybrid Urethane roof coating. **XtremeCOAT** is a low viscosity highly penetrative coating which upon curing forms a flexible membrane, making it highly suitable for all types of waterproofing applications on various substrates. **XtremeCOAT** has excellent adhesion on all suggested substrates and can also be applied on wet and damp surfaces.

STORAGE LIFE

12 months when stored in unopened conditions.
